

Understanding Antimicrobial Resistance in your Facility:

The Patient Report and the Cumulative Antibiogram

An Audioconference
sponsored by:

**Arkansas Department of Public Health Laboratory
and National Laboratory Training Network**

Date: December 17, 2003

Time: 1:00 p.m. CST

Faculty: Janet Hindler, MCLS, MT(ASCP)

Senior Specialist, Clinical Microbiology, UCLA Medical Center, through an Interagency Personnel Agreement with the Centers for Disease Control and Prevention (CDC).

Objectives: At the conclusion of this program, participants will be able to:

1. Discuss use of NCCLS standards for antimicrobial susceptibility testing (AST) and how to report in clinical and public health laboratories.
2. Describe effective reporting of antimicrobial resistance on routine laboratory reports.
3. Discuss the analysis and presentation of cumulative antimicrobial susceptibility test data (antibiogram) at local healthcare facilities.

Who Should Attend: This program is intended for: microbiologists, infection control practitioners, pharmacists, and physicians.

For Additional Information: Call the NLTN Nashville Office at 615-262-6315 or e-mail seoffice@nltn.org.

How it Works: You will need a conference phone to participate in the conference. Once your site has registered, you will be given a passcode to a website where you can get the conference bridge phone number and a passcode to connect you to the audioconference. You will be able to access the handout materials and a PowerPoint presentation from the website. On the day of the presentation simply dial the conference bridge, enter your passcode and you will hear the presentation. Following the formal presentation the conference bridge will be opened to accept questions from the audience. There is no enrollment fee for this workshop; however, your site must be registered to obtain a passcode to the conference bridge.

To Enroll: Complete the attached site registration form and submit it to the National Laboratory Training Network Nashville Office by fax or mail. Register early. We have a limited number of conference bridge ports available.

Fax: 615-262-6441

Mail: NLTN
